

Microsoft Case Study Features Compugen, a Global Leader in Deployment of Microsoft Technologies

Toronto, Ontario – September 22, 2009 – Compugen Inc., a Microsoft Gold Certified Partner and a leading Microsoft Large Account Reseller (LAR) in Canada, was recently featured in a [Microsoft Case Study](#) for *Windows Partner Solutions*.

Windows Partner Solutions (WPS) helps solution providers improve the **desktop infrastructure** of their customers. The two solution opportunities that make up WPS include Optimized Desktop Solutions and **Managed Desktop Services**. Together with the core business and technology features of Windows Vista Enterprise and Windows 7 Enterprise, along with Microsoft Desktop Optimization Pack (MDOP), the Windows Partner Solutions program helps customers reduce deployment costs and gives solution providers a new range of tools to help clients evolve towards a more mature IT core infrastructure and greater business agility.

Compugen's contribution to WPS is ongoing, but its automation of desktop and server deployment via a customized solution as highlighted in the case study has yielded easier upgrades and reduced desktop deployment costs for its customers.

Work continues on improving the management of core desktop infrastructure via MDOP and MDT (Microsoft Deployment Toolkit). Compugen's customized management solution for various customers delivers on the promise of better management of Microsoft desktops, reduced costs and greater business agility.

Click here to view the [Microsoft Case Study](#) and find out how Compugen has helped businesses increase productivity through managed desktop services. .

In each of the past three years, Compugen has been honoured at Microsoft's Worldwide Partner Conference, with annual *Partner of the Year* awards for [Advanced Infrastructure, Windows Desktop Deployment](#) (for 2008), [Advanced Infrastructure Solutions, Exchange Migration and Deployment](#) (for 2007) and [Information Worker Solutions, Office Systems Desktop Deployment](#) (for 2006).

About Compugen

Compugen has many experienced Compugen Microsoft consultants working from 15 offices in major centres across the country—Victoria, Vancouver (Richmond); Edmonton, Calgary, Regina, Winnipeg, Thunder Bay, London, Guelph, Brantford, Ottawa, Toronto (Richmond Hill), Montréal, Québec and Halifax (Dartmouth). Compugen's dedicated team of Microsoft software sales specialists manages hundreds of Select Agreements and dozens of Enterprise Agreements for Microsoft customers across Canada.

In addition to Microsoft software sales and deployments, Compugen solutions cover a wide range of other IT domains, including desktops, servers, storage, printing, networking, virtualization, business continuity/disaster recovery. To support these solutions, Compugen offers a complete design-build-run-maintain lifecycle suite of professional IT services and is a top-level partner in Canada for Cisco, Citrix, Hewlett-Packard, IBM, Lenovo, Microsoft, VMware and other technology leaders.

Complete information on Compugen solutions and its suite of IT lifecycle services can be found at www.Compugen.com.

Microsoft, Windows Vista, Cisco, Citrix, Hewlett-Packard, IBM, Lenovo and VMware are either registered trademarks or trademarks of their respective owners in Canada and/or other countries.
