

## Compugen Launches into New World of Work with Microsoft

*Microsoft Partner to sponsor 2007 Microsoft Launch, the biggest Microsoft launch event ever*

**Richmond Hill, Ontario – 21 November 2006** – Today, **Compugen Inc.**, a Microsoft Gold-certified Partner, announces that it is a Gold sponsor of the 2007 Microsoft Launch of the 2007 Microsoft® Office system, Microsoft® Exchange Server 2007 and Microsoft® Windows Vista™ operating system.

"With the launch of the 2007 Office system, Windows Vista and Exchange Server 2007, Microsoft is creating new opportunities for Compugen to leverage our business and technical capabilities and experience to help meet our customers' unique needs," said Harry Zarek, Compugen's President and CEO. "We're very excited about the business opportunities ahead - this launch signifies a new age of computing, and Compugen has made significant investments in developing the expertise to guide customers along the path to the new platform."

The 2007 Microsoft Launch will focus on showcasing the solutions and services delivered by Microsoft's ecosystem of technology partners. Compugen will be showcasing the results of its 18 early-adopter programs, through which leading Canadian companies were able to improve efficiency and reduce costs, making their staff more productive and more empowered through the use of Microsoft Vista, Exchange Server 2007 and the 2007 Office system, and in turn passing on significant service benefits to their customers. The latest releases of Microsoft software offer new and enhanced capabilities, making it easier to find information and business insight. The products will help simplify how people work together to reduce IT costs and increasing security as well as enable better content management and protection.

"Ensuring employees have all the tools they need at their fingertips is a crucial component of this new world of work" said Emma Da Silva, Director, Information Worker Group, Microsoft Canada Co. "Compugen understands the importance of empowering Canadian organizations to help drive greater business impact. Windows Vista, the 2007 Office system, and Exchange 2007 will provide their customers with the tools they need to help improve their own personal efficiency and the ability to make smarter business decisions."

### About Compugen

Compugen has been providing IT infrastructure solutions since it was founded in 1981 by current President Harry Zarek. Celebrating its 25<sup>th</sup> anniversary this year, Compugen's experienced team of IT professionals helps corporations and government agencies across Canada with solutions that optimize IT costs and leverage technology for better business results.
