Compugen Recognized as Top Lenovo Services Partner in Canada

Richmond Hill, Ont. – July 9, 2007 – Compugen Inc., a Lenovo Business Partner, and one of the largest Canadian-owned IT solution and service providers and PC systems integrators, is pleased to announce that it has been recognized by Lenovo (Canada) Inc. as a Premier Services Partner for its achievements in delivering high levels of quality in providing hardware warranty services to Lenovo desktop and laptop products over the past year.

The recognition, which was only granted to the top eight percent of all Lenovo service partners in the Americas, was bestowed individually on three Compugen office locations – Vancouver, Ottawa and Richmond Hill – based on scores that each location achieved in meeting a number of service performance criteria. The criteria include such performance indicators as percentage of first-time fixes, number of repair parts required per machine, percentage of parts efficiency, average repair time, average number of days to return parts, and customer satisfaction, as measured through surveys conducted by Service 800, an independent firm that monitors and measures customer satisfaction.

“Compugen is very pleased to receive this recognition because it reinforces our commitment to providing best-in-class performance across *all* aspects of the complete IT lifecycle, including hardware service,” says Harry Zarek, President & CEO of Compugen. “I’m grateful to all our Technical Services staff for their continued efforts on behalf of Compugen and our customers.”

Compugen’s Ottawa branch received special recognition as ‘best in region’ for achieving the highest overall score of all Lenovo service partners in Canada – a recognition that goes to only 12 such regional winners in all of the Americas. When asked to comment further on this recognition, Hugh Carry, Compugen’s Ottawa Branch Service Delivery Manager, added that, “This is also important for our customers that use Lenovo products because it gives them even greater peace of mind to know that in working with Compugen, they are working with the top Lenovo service organization in Canada as evaluated by Lenovo themselves.”

“Day in and day out our Lenovo personal computer lineup scores highly with customers for our products’ dependability and the superior service provided by partners such as Compugen,” says Peter Sutherland, Business Unit Executive, Lenovo Channels. “I’m pleased to acknowledge Compugen’s achievement in winning the Lenovo Premier Service Partner Recognition award and congratulate all its employees on a job well done.”

About Compugen

Compugen has been providing practical, real-world IT infrastructure solutions since it was founded in 1981 by current President and CEO Harry Zarek. Today, Compugen’s
