Integration of Logicil

Compugen Continues Expansion in Québec

(Québec, August 23, 2006) – **Compugen Inc.**, one of Canada's largest privately-owned and operated Information Technology services and solutions providers, announces the integration of **Logicil**, a Québec consulting firm specializing in professional services. This transaction will enable Compugen to consolidate its position as an IT services and solutions leader in the province, especially in Québec City.

"We currently work with Logicil on a regular basis, and we have developed excellent relations with its executives and specialists, all of them highly competent and adaptable," noted Compugen Vice President, Strategic Development, Gilbert Boucher. "Like us, Logicil shows great professionalism and always acts in its clients' best interests. In this sense, the complete integration of Logicil into Compugen is the natural outcome of our business relations, and a decision that is right in line with our development plan in Québec."

Logicil offers consulting services that include network integration, architecture and installation, information security consulting, and hardware expertise for consulting on equipment purchase. Even though it will now do business under the Compugen name, it will remain in its present offices, and its entire staff will remain in place. Logicil's President and General Manager, Gaéтан Labrecque, becomes Compugen's Director of Professional Services in Québec City.

"This association is excellent news for both Logicil's and Compugen's clientele," Gaéтан Labrecque explains. "Logicil's clients can benefit from the best possible IT products and services offered by Compugen, while Compugen clients will enjoy direct, immediate access to professional resources who know the local market intimately."

"We are excited to see the Microsoft technology partner community investing in their professional services capabilities in Quebec," said Andrew Coulson, Director, Enterprise Partners, Microsoft Canada Co. "This is a great example of how technology partners are able to present their unique expertise directly to the customer, and Microsoft Canada is pleased to be a supporter of the newly expanded Compugen team to deliver the value of the Microsoft-based platform to customers in the region."

The acquisition of Logicil is Compugen's second this year. In January the firm acquired Groupe Conseil LSGI.

About Compugen

Compugen Inc., one of the largest Canadian-owned IT solution and service providers and PC systems integrators, has been providing practical, real-world IT infrastructure solutions since it was founded in 1981 by current President and CEO Dr. Harry Zarek. Today, Compugen's experienced team of IT professionals helps medium and large corporations and government agencies across Canada with enterprise-level solutions that optimize IT costs and leverage technology for better business results. Compugen offers a complete design-build-run-maintain

lifecycle suite of professional IT services and is a top-level partner in Canada for Microsoft, Hewlett-Packard, IBM, Lenovo, Citrix, Cisco and other technology leaders.

Complete information on Compugen and its comprehensive range of IT solutions and services can be found at www.compugen.com.

About Logicil

Founded in 1999, Logicil offers systems integration consulting services and computer training. Gaétan Labrecque, its founder and current President, has more than 12 years of experience in the computer industry, and in 1993 was the first person in Canada certified by Microsoft. Logicil provides cutting-edge information technology solutions and services to small, medium-sized and large companies, as well as organizations working in various fields. In particular, it has unique experience in network deployment and workstation operations. The firm is a Microsoft GOLD level certified partner, and invests heavily in training its certified senior technical specialists.
