

Compugen Attains VMware Premier Partner status.

Richmond Hill, Ontario, September 11th, 2007 – Compugen Inc., one of the largest Canadian-owned IT lifecycle solution and service providers, is pleased to announce it has been granted Premier Partner status by VMware, the market leader in infrastructure virtualization software. This announcement recognises the strength and capability of both organizations to grow and expand the delivery of VMware solutions to customers across Canada.

Compugen's VirtualONE Infrastructure Solutions Practice assists customers with the design and implementation of VMware solutions to simplify their IT environments, optimize their existing computing investments and respond faster to changing business demands. VMware Premier Partner status allows Compugen to enhance current value to its clients by enabling advanced virtualization design and infrastructure planning solutions, as well as providing enhanced support and dedicated systems engineering resources.

The Premier Partner tier is designed for companies investing in VMware expertise at higher levels. The rigid VMware Premier Partner requirements are based on a defined number of VMware technical certifications, overall customer satisfaction and license revenue and growth. Premier Partners also must demonstrate expertise in delivering services around VMware products by qualifying as VMware Authorized Consultants.

About Compugen VirtualONE Infrastructure Solutions

Compugen offers ONE source for architecting and implementing virtualization across the entire IT environment - realizing a vision for virtualization across desktops, servers, storage, applications or print. VirtualOne brings customers best of breed technologies from leaders like Microsoft, Citrix and VMware together with Compugen's industry-leading expertise to architect and implement them. The VirtualONE team crafts the right virtualization strategy for each individual organization's requirements, helping them to achieve their particular technology and business objectives. Whether the focus is achieving business agility, adaptive infrastructure, convergence of platforms or more robust business continuity capabilities, VirtualONE takes IT infrastructure from virtual theory to virtual reality!

About Compugen

Compugen has been providing practical, real-world IT infrastructure solutions since it was founded in 1981 by current President and CEO Harry Zarek. Today, Compugen's experienced team of IT professionals helps medium and large corporations and government agencies across Canada with enterprise-level solutions that optimize IT costs and leverage technology for better business results. Compugen offers a complete design-build-run-maintain lifecycle suite of professional IT services and is a top-level partner in Canada for Hewlett-Packard, IBM, Lenovo, VMware, Citrix, Cisco, and other technology leaders.
