

For Immediate Release

Compugen Recognized by Vizioncore as Outstanding Partner in Canada

Award Presented at Vizioncore Partner Reception at VMworld Las Vegas

Toronto, Ont. – December 10, 2008 – Compugen announced today that it has signed an agreement with Vizioncore, a leading provider of [virtual infrastructure management](#) tools, to resell its full product line in Canada. These products, including vRanger Pro, vFoglight, vReplicator, vConverter, and vOptimizer Pro, support the VMware™ platform to enable better infrastructure management, better backup, better disaster recovery, monitoring, P2V/V2V and high availability for virtual IT infrastructures.

Vizioncore Inc. (www.vizioncore.com) a fully owned subsidiary of Quest Software operations in the Americas, EMEA, Asia and Australia. Vizioncore's products provide server virtualization management solutions that help customers safeguard and optimize their IT systems while allowing them to extract the maximum return on their investment in virtualization. The company distributes its products through an extended partner network of 2,200 value-added resellers worldwide.

Compugen also announced it has been awarded Vizioncore's Outstanding Partner of the Year for the Canadian region. At the recent Vizioncore partner reception at VMworld Las Vegas, Compugen collected the award from Joe Castro, Vice President of Americas Sales for Vizioncore Inc. This award is bestowed on only a limited number of Vizioncore's partners annually in recognition of exceptional achievements in both revenue growth and customer satisfaction.

Benefits of the Compugen-Vizioncore Relationship

"This partnership affords Compugen's VMware customers better access to virtualization management tools at highly cost effective pricing," said Lou Tetsos, Compugen's virtualization practice manager. "Compugen offers Vizioncore a history of solid sales and software support in the virtualization sphere, as well as national coverage and related services," he continued.

This development is yet another milestone in the ongoing relationship between Compugen and Vizioncore Inc., with both companies developing solid track-records and expertise in virtualization solutions for the data centre.

"A main focus for Vizioncore is excellence, especially with regard to the quality of our products and the quality of our partners and their ability to keep customers productive and moving forward," said Joe Castro, VP of Americas Sales. "Compugen embodies many of the key attributes we look for in our partners, and we are pleased to award them Outstanding Partner of

the Year. We see this as a reflection of their commitment to offer customers reputable, world-class virtualization products and service.”

About Compugen

Compugen, one of the largest Canadian-owned IT solution providers and PC systems integrators, has been providing practical, real-world IT infrastructure solutions since it was founded in 1981. Today, Compugen’s experienced team of IT professionals helps medium-size and large corporations and government agencies across Canada with enterprise-level solutions that optimize IT costs and leverage technology for better business results.

Compugen is one of Canada’s premier suppliers of virtualization solutions both for datacentre and desktop. A [VMware Premier Partner in Canada](#), Compugen designs and builds robust, enterprise-class solutions adapted to the individual corporate or government IT environment using technologies and tools from all major hardware and software manufacturers.

Compugen’s virtualization solutions are sold under the rubric [VirtualONE](#), which represents a holistic way of approaching server consolidation, greening of the datacentre and corporate desktop, and reducing IT management complexity through well designed and delivered hybrid virtualization projects.
